## Recombinant Anti-Human CD40LG Antibody

Cat. No.: **MOM-18027**

This product is for research use only and is not intended for diagnostic use.

### Product Overview

Recombinant Humanized (from mouse) Antibody is bind to Human CD40L, expressed in Chinese Hamster Ovary cells(CHO)

### Antigen Description

Mediates B-cell proliferation in the absence of co-stimulus as well as IgE production in the presence of IL-4. Involved in immunoglobulin class switching. Release of soluble CD40L from platelets is partially regulated by GP IIb/IIIa, actin polymerization, and an matrix metalloproteinases (MMP) inhibitor-sensitive pathway.
