## Recombinant Anti-Human mmp12 Antibody

Cat. No.: **MOM-18437**

This product is for research use only and is not intended for diagnostic use.

### Product Overview

Recombinant Mouse Antibody is against Human MMP12, expressed in Chinese Hamster Ovary cells(CHO)

### Antigen Description

May be involved in tissue injury and remodeling. Has significant elastolytic activity. Can accept large and small amino acids at the P1" site, but has a preference for leucine. Aromatic or hydrophobic residues are preferred at the P1 site, with small hydrophobic residues (preferably alanine) occupying P3.
